PROFESSIONAL EXPERIENCE

JAGGAER

CRM & Marketing Automation Specialist (Pardot) | Jun 2025 - Present | Remote

- Designed and implemented automated CRM workflows and lifecycle campaigns using Salesforce Pardot (lead nurturing, drip campaigns, customer journeys).
- Built and optimized responsive email templates, landing pages, and forms (HTML/CSS).
- Managed audience segmentation, lead scoring, and targeting strategies for B2B campaigns.
- Maintained and optimized data flows between Salesforce and Pardot, ensuring data accuracy and campaign reliability.
- Troubleshot automation and integration issues, improving workflow performance and system stability.
- Conducted A/B testing and optimized campaigns based on performance insights.
- Collaborated cross-functionally with marketing, sales, and technical teams.

Stepstone Belgium

Web & Campaign Developer | Apr 2023 - Feb 2025 | Remote

- Designed and implemented automated CRM workflows and lifecycle campaigns across B2B & B2C markets.
- Developed and maintained dynamic, interactive and responsive email templates using HTML, CSS, AMP for Email, Scriban and Selligent scripting.
- Built advanced audience segmentation using behavioral data and campaign logic.
- Worked with SQL (T-SQL) for segmentation, targeting, and campaign personalization.
- Ensured email deliverability, testing, and compliance across multiple markets.
- Conducted A/B testing and optimized campaigns based on performance insights.
- Collaborated with product, marketing, and CRM teams in Agile environments.
- Supported campaign execution through technical troubleshooting and workflow optimization.

Web & Campaign Developer | Feb 2019 - Apr 2022 | Brussels

- Developed and optimized automated user journeys using Selligent to enhance engagement and personalization.
- Supported B2B and B2C teams in building multi-channel marketing campaigns.
- Developed dynamic, interactive and responsive email templates using HTML, CSS, AMP for Email and Selligent scripting.
- Worked with SQL (T-SQL) for segmentation, targeting, and campaign personalization.
- Provided technical consulting to business teams and product stakeholders.
- Handled technical issues related to campaign execution and platform usage.
- Performed QA and cross-channel testing to ensure campaign reliability.
- Collaborated with CRM and product teams to improve tools, workflows, and campaign capabilities.
- Created documentation and best practices to support internal teams.

Foxweb

Web Developer & Designer | Jul 2018 - Jul 2019 | Lessines

- Integrated PSD designs into responsive websites (HTML/CSS).
- Developed and integrated email templates for campaign tools (Mailchimp, Campaign Monitor).
- Maintained and updated client websites, ensuring performance and usability.
- Supported WordPress setup, customization, and maintenance.

MCI Group

Web Developer & Designer | Sep 2016 - Apr 2018 | Brussels

- Integrated PSD designs into email templates and websites using HTML5 and CSS3.
- Developed email templates for marketing campaigns using tools such as Mailchimp and Campaign Monitor.
- Worked with JavaScript frameworks for interactive features.
- Managed small to large-scale web projects in a client-driven environment.
