PROFESSIONAL EXPERIENCE

JAGGAER

Marketing Automation Specialist (Pardot / Salesforce)

Jun 2025 - Present | Remote

- Implemented and maintained CRM automation workflows using Salesforce (Pardot / Engagement Studio).
- Built and maintained email templates, landing pages, and forms (HTML/CSS).
- Managed audience segmentation and data synchronization between Salesforce and Pardot.
- Troubleshoot automation, data flow, and integration issues to ensure system reliability.
- Supported campaign execution and platform operations in a B2B environment.

Stepstone Belgium

Web & Campaign Developer (CRM Systems & Email Engineering)

Apr 2023 - Feb 2025 | Remote

- Translated business requirements into scalable CRM workflows using Selligent.
- Built and maintained complex lifecycle automation flows (triggers, conditions, orchestration) across B2B & B2C markets.
- Developed dynamic and highly personalized email templates using HTML, CSS, AMP for Email, Scriban and Selligent scripting.
- Applied advanced templating logic (conditional rendering, variables, dynamic content).
- Worked with SQL (T-SQL) for segmentation, data validation and campaign logic.
- Managed deployment workflows using Git and internal tooling.
- Troubleshoot and resolved campaign, data, and delivery issues across multiple markets.
- Acted as a technical point of contact for CRM-related issues and system behavior.
- Collaborated with product, marketing, and CRM teams in Agile environments.

Web & Campaign Developer

Feb 2019 - Apr 2022 | Brussels

- Developed and optimized automated CRM workflows using Selligent.
- Built dynamic and responsive email templates with personalization logic.
- Worked with SQL (T-SQL) for segmentation and targeting.
- Provided technical support and guidance to stakeholders.
- Performed QA and cross-channel testing to ensure campaign reliability.
- Contributed to documentation and internal best practices.
- Collaborated with CRM and product teams to improve workflows and tools.

Foxweb

Web Developer & Designer

Jul 2018 - Jul 2019 | Lessines

- Integrated responsive websites and emails from design (HTML/CSS).
- Developed and integrated email templates for campaign tools (Mailchimp).
- Maintained and updated client websites, ensuring performance and usability.
- Supported WordPress setup, customization, and maintenance.

MCI Group

Web Developer & Designer

Sep 2016 - Apr 2018 | Brussels

- Integrated PSD designs into email templates and websites using HTML5 and CSS3.
- Developed email templates for marketing campaigns using Campaign Monitor.
- Worked with JavaScript frameworks for interactive features.
- Managed small to large-scale web projects in a client-driven environment.
